EXAMINER'S AMENDMENT AND STATEMENT OF REASONS FOR ALLOWANCE

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Aaron Waxler on December 15, 2003.

The application has been amended as follows:

The opening of claim 1 has been amended to read: "A device for the inspection of a rotating surface" from "A device for the inspection of one or more a rotating surface" to clear up faulty language.

Allowable Subject Matter

Claims 1-11 and 13-are are allowed in view of the prior art.

The following is an examiner's statement of reasons for allowance:

As to claims 1 and 13, the prior art of record, taken either alone or in combination, fails to disclose or render obvious a device and method for the inspection of a rotating surface, in combination with the rest of the limitations of the claim.

With more specific regard to the claims, the applicant's arguments in response to the previous Office Action give detailed reasons for the allowability of the claims over the prior art. In particular, the prior art fails to reveal an evaluation unit for determining the velocity of a defect on the surface from the shifted frequency and from this velocity the position of the defect

on the surface, in combination with all elements and limitations, and in combination with any analogous method steps, in the rest of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
